Dear Colleague,

The ENT Department of the Hospital Lusíadas Porto, over the past 15 years, has done a strong investment in the ENT post-graduation and, more specifically, in Rhinology and Rhinoplasty. As part of this strategy, we organized in 2016 the 1st Rhinoplasty Hands-On Surgical Course (Basic Module). Due to the excellent feedback that we received from the participants, we will organize in 2018, the 2nd Rhinoplasty Hands-On Surgical Course (Advanced Module).

The Advanced Module will be held from the 22nd to the 24th of November 2018 and will be limited to 8 participants. The participants will attend several lectures done by our renowned faculty and also be part of at least one of the 8 surgeries and be present in the others 7. The course will be conducted in a way that promotes attendee's participation and proximity to the faculty, in a way that all questions can be answered and everyone's performance can improve.

For this 2nd course, the invited faculty list is Olivier Gerbault, Charles East, Yves Saban, Milos Kovacevic and Abdulkadir Goksel.

See you in November 2018.
